

Wykonaj działania. Wyniki zapisz za pomocą liczb rzymskich.

$$\text{III} + \text{VI} = \square$$

$$\text{VI} + \text{VI} = \square$$

$$\text{XX} - \text{V} = \square$$

$$\text{I} + \text{VIII} = \square$$

$$\text{VII} + \text{X} = \square$$

$$\text{XIX} - \text{IV} = \square$$

$$\text{IV} + \text{VI} = \square$$

$$\text{IX} + \text{VI} = \square$$

$$\text{XV} - \text{VI} = \square$$

$$\text{II} + \text{VIII} = \square$$

$$\text{XV} + \text{IV} = \square$$

$$\text{XIV} - \text{V} = \square$$

$$\text{V} + \text{V} = \square$$

$$\text{VIII} + \text{VI} = \square$$

$$\text{XX} - \text{X} = \square$$

$$\text{I} + \text{IX} = \square$$

$$\text{VII} + \text{VI} = \square$$

$$\text{XVI} - \text{IV} = \square$$

$$\text{III} + \text{III} = \square$$

$$\text{IX} + \text{IX} = \square$$

$$\text{XIX} - \text{XI} = \square$$

$$\text{VIII} + \text{I} = \square$$

$$\text{X} + \text{X} = \square$$

$$\text{XX} - \text{VII} = \square$$

$$\text{IV} + \text{I} = \square$$

$$\text{II} + \text{XVIII} = \square$$

$$\text{XIV} - \text{XII} = \square$$
